ORDINANCE NO. 2022-022023-04
**AN ORDINANCE OF THE BOARD OF DIRECTORS OF THE
PHELAN PINON HILLS COMMUNITY SERVICES DISTRICT
ESTABLISHING UNIFORM SOLID WASTE, RECYCLING
AND ORGANIC WASTE DISPOSAL REQUIREMENTS**

WHEREAS, the Phelan Piñon Hills Community Services District (“District”) is a Community Services District located within the County of San Bernardino and is organized and operates pursuant to California Government Code 61000 et seq.; and

WHEREAS, pursuant to the California Integrated Waste Management Act of 1989 (public Resources Code Sections 40000 et seq.), the state has mandated that local agencies make adequate provisions for Solid Waste handling within their jurisdictions; and

WHEREAS, pursuant to the Local Agency Formation Commission County for San Bernardino County Resolution No. 3153, the District is authorized to collect, transfer, and dispose of solid waste and provide solid waste handling service, including, but not limited to, source reduction, recycling, composting activities, pursuant to Division 30 (commencing with Section 40000), and consistent with Section 41821.2 of the Public Resources Code; and

WHEREAS, State recycling law, Assembly Bill 939 of 1989, the California Integrated Waste Management Act of 1989 (California Public Resources Code Section 40000, *et seq.*, as amended, supplemented, superseded, and replaced from time to time), requires local agencies to reduce, reuse, and recycle (including composting) Solid Waste generated in their jurisdictions to the maximum extent feasible before any incineration or landfill disposal of waste, to conserve water, energy, and other natural resources, and to protect the environment; and

WHEREAS, State recycling law, Assembly Bill 341 of 2011 (approved by the Governor of the State of California on October 5, 2011, which amended Sections 41730, 41731, 41734, 41735, 41736, 41800, 42926, 44004, and 50001 of, and added Sections 40004, 41734.5, and 41780.01 and Chapter 12.8 (commencing with Section 42649) to Part 3 of Division 30 of, and added and repealed Section 41780.02 of, the Public Resources Code, as amended, supplemented, superseded and replaced from time to time), places requirements on businesses and Multi-Family property owners that generate a specified threshold amount of Solid Waste to arrange for recycling services and requires the District to implement a Mandatory Commercial Recycling program; and

WHEREAS, State organics recycling law, Assembly Bill 1826 of 2014 (approved by the Governor of the State of California on September 28, 2014, which added Chapter 12.9 (commencing with Section 42649.8) to Part 3 of Division 30 of the Public Resources Code, relating to Solid Waste, as amended, supplemented, superseded, and replaced from time to time), requires businesses and Multi-Family property owners that generate a specified threshold amount of Solid Waste, Recycling, and Organic Waste per week to arrange for recycling services for that waste, requires the

District to implement a recycling program to divert Organic Waste from businesses subject to the law, and requires the District to implement a Mandatory Commercial Organics Recycling program; and

WHEREAS, SB 1383, the Short-lived Climate Pollutant Reduction Act of 2016, requires CalRecycle to develop regulations to reduce organics in landfills as a source of methane. The regulations place requirements on multiple entities including the District, residential households, Commercial Businesses and business owners, Commercial Edible Food Generators, haulers, Food Recovery Organizations, and Food Recovery Services to support achievement of Statewide Organic Waste disposal reduction targets; and

WHEREAS, SB 1383, the Short-lived Climate Pollutant Reduction Act of 2016, requires the District to adopt and enforce an ordinance or enforceable mechanism to implement relevant provisions of SB 1383 Regulations. This ordinance will also help reduce food insecurity by requiring Commercial Edible Food Generators to arrange to have the maximum amount of their Edible Food, that would otherwise be disposed, be recovered for human consumption.

NOW, THEREFORE, BE IT ORDAINED by the Board of Directors of the Phelan Piñon Hills Community Services District, after conducting a public hearing duly noticed, as follows:

SECTION 1. CEQA ENVIRONMENTAL DETERMINATION

The Board of Directors exercises its independent judgment and finds that this ordinance is not subject to the California Environmental Quality Act (CEQA) pursuant to the State CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, Section 15308, which exempts "actions by regulatory agencies for protection of the environment." This Ordinance is consistent with the goals of California State Assembly Bills 939, 341, and 1826, and Senate Bill 1383.

SECTION 2. PURPOSE, INTENT, AND FINDINGS

A. Purpose. The management and proper disposal of Solid Waste is a matter of great importance to the District, its citizens, visitors, property owners and businesses. The District finds that the public health, safety, and well-being require the generation, accumulation, handling, collection, transportation, conversion and disposal of Solid Waste be controlled and regulated by the District through the comprehensive system provided in this Ordinance. This Ordinance is intended to ensure Solid Waste Handling Services are readily available, adhere to uniform standards, and are reliable, clean, and efficient. The District has a strong interest in reducing the harboring and breeding of rodents and insects, reducing the spread of disease, and preventing pollution and other unsightly degradation of the environment, which can occur with the improper handling of Solid Waste and the excess accumulation of Solid Waste.

B. Findings. The District finds and declares:

1. The Legislature of the State of California, by enactment of the California Integrated Waste Management Act of 1989, ("AB 939" or the "Act") (codified at

Public Resources Code §§ 4000 et seq.) established a solid waste management process that requires cities and other local jurisdictions to adopt and implement plans to reduce the amount of solid waste generated within their jurisdiction and to maximize reuse and recycling.

2. AB 939 states that the frequency of solid waste collection, the means of solid waste collection and transportation, levels of services, charges and fees for services, and the nature, location and extent of providing solid waste services, are matters of local concern.

3. AB 939 expressly allows local agencies to provide solid waste services to its residents by its own forces or by authorizing a private entity to provide those services.

4. SB 1383, the Short-lived Climate Pollutant Reduction Act of 2016, which is codified at Public Resources Code §§42652-42654 and Health & Safety Code §§39730.5 – 39730.8, places requirements on multiple entities including local agencies, residential households, Commercial Businesses and business owners, Commercial Edible Food Generators, haulers, Self-Haulers, Food Recovery Organizations, and Food Recovery Services to support achievement of Statewide Organic Waste disposal reduction targets.

Grants

- **SB 1383 Local Compliance Grant**
 - Submitted in January 2022. The District was awarded \$20,000. Grant funds have been used to pay for Solid Waste consultant.
- **Small Scale Water Efficiency Grant**
 - \$75,000 to be disbursed when meters for Phase 3a are purchased.
- **Community Project Funding Request - 2023**
 - Staff submitted a Community Project Funding Request (“Request”) in the amount of \$2 million to help fund a portion of the Civic Center Project which will house the Community/Board Room that also will serve as the area’s Community Emergency

Operations Center. The \$2 million request was funded in the FY2023 Omnibus appropriations bill which the Senate and House passed at the end of December. CalOES issued grant documents to the District to complete as they will be administering the funds.

- **Community Project Funding Request - 2024**

- Staff submitted a Community Project Funding Request ("Request") in the amount of \$2,000,000 to help fund a Tank 6A-2. Staff is pleased to report the District's full Request was selected by the Congressman as one of the 15 projects he submitted to the House Appropriations Committee.
- There is an approximately year-long process before final approval and receipt of funds. The Request must be reviewed and approved by the House Appropriations Committee who will then craft legislation in the form of funding bills which are then consolidated with the Senate Appropriations Committee's funding bills. The consolidated funding bill is then signed into law by the President and funding is then distributed. After funding is distributed, the District will have approximately 12-24 months to complete the project and is subject to an audit by the Government Accountability Office. During this time, it is possible that funding for such Requests may disappear, however all indications show that funding is likely to continue for now.

- **County American Rescue Program Act (ARPA) Funds**

- Staff worked with consultants and submitted a request to the county. The county has preliminarily approved \$457,194 in ARPA funds for construction of certain parks elements. The contract was approved by the District's Board on 3/8/2023 and has been submitted to the County and is awaiting Board of Supervisors for ratification, expected mid-June.

- **Land and Water Conservation Fund Grant**

- The grant was submitted on May 31, 2023, in the amount of \$976,154. Funding determination is expected in the fall of 2023.
